D3 TEKNIK KOMPUTER

Politeknik Negeri Jember

PROJECT EXPERIENCE

IoT Security Camera System

ESP32-CAM + PIR + Web Dashboard

- Live streaming monitoring
- Motion detection auto capture
- Image storage with timestamp
- Multi-camera dashboard
- Device ON/OFF control via web

Tech: ESP32, PHP Native, MySQL, JavaScript

Flutter Mobile Monitoring App

Aplikasi mobile untuk monitoring sistem IoT:

- Real-time data display
- API integration dengan backend
- Responsive UI
- Authentication system

Tech: Flutter, Dart, REST API

CAREER OBJECTIVE

Actively seeking internship or junior developer position in Web Development, Mobile Development (Flutter), or IoT Systems Engineering.
